

Type P Insert Nut

Type P Insert Nuts Are Serrated On The External Thread That Ensures A High Torque And Pull-Out Resistance Achieved With Minimal Insertion Torque.
The Inserts Are Self Tapping And Give A Strong Permanent Thread In Wood And Other Simular Sheet Materials.
Made From Zinc Alloy Die Cast

Thread	Length "L"	"D"	A/F "K"
M6	13mm	8.8-8.7mm	6mm
